ABSTRACT

As part of a project conducted at the Kent State School of Library Science to investigate alternative methods for providing graduate education for librarianship in Ohio, a survey of Ohio libraries was undertaken to determine which geographical areas of the state have periodical collections in the field of library and information science adequate to support graduate study. The 214 periodical titles indexed in Library Literature during 1980 were searched in the OCLC database, and 23 Ohio libraries with major collections of library science periodicals were identified. These libraries were surveyed to obtain information on specific holdings for each title searched. A list of the periodicals indexed by Library Literature is included, along with tables which summarize the percentage of periodicals held by individual libraries with major collections. The holdings information has also been tabulated by state region. A supplement to the report details the specific holdings of the 23 libraries with major collections. (JL)

Introduction

The Graduate Education for Librarianship in Ohio Project was funded to investigate alternative methods for providing graduate education in librarianship in Ohio. To determine which geographical areas in Ohio have adequate library collections to support graduate education and/or continuing education programs in librarianship, project staff evaluated periodical collections in the field of library and information science, using the OCLC data-base. Ohio holding libraries were identified for each of the two hundred and eleven periodicals indexed in Library Literature in 1980.

This report contains the results of this search. It should be noted that the data for most libraries are limited in two ways. First individual library holdings should be considered minimum collections. This conclusion is based on known discrepancies between actual holdings and OCLC determined holdings for several institutions with major professional collections. Second the term "holdings" is actually inappropriate. Specific institution listings include titles that have been cancelled in recent years as well as continuing subscriptions. An attempt was made to correct these weaknesses in this updated edition. Twenty-three major institutions verified the OCLC-derived data on their collections and provided actual holding information, published in a supplement to this report. The contents of this report therefore reflect complete collections for these twenty-three libraries and minimum collections for the remaining libraries.

Organization of Report: Abbreviations and Symbols

This report has two main parts. The first contains a listing of periodicals indexed in Library Literature. The ISSN number, the year of first publication, and any former titles are provided for each listing. The second portion of the report contains data on institutional collections in eleven Ohio regions. An institution is listed if the OCLC search indicated its collection contained a least one of the periodicals indexed in Library Literature. Two symbols have been used: a) "1" indicates that holdings were identified under the current periodical title and b) "2" indicates that holdings were identified under former titles.

The eleven regions have been combined into six sections: 1) CALICO, 2) INFO/CAMLS, 3) COIN, MOLO, OVAL and SOLO, 4) NORWELD and WORLDS, 5) MILO and SWORL/GCLC and 6) NOLA. Each section contains a map of region and a list of OCLC symbols for holding libraries.

Major Collections

Twenty-three libraries have been classified as major collections of library and information science periodicals. Major collections have been defined as ones holding ten or more titles indexed in Library Literature. They are listed by region in Tables 1 through 6 below. No major collections were located for the MOLO, SOLO, or WORLDS regional systems.

For each institution, the percentage of titles held in five periodical categories has been determined. These categories are defined as follows:

- | | |
|-----------------------------------|---|
| 1. All titles | All two hundred and eleven periodical titles indexed in <u>Library Literature</u> . These are listed in the main periodical listing. |
| 2. Books and book reviews (B) | The eleven selection tools listed in the Books and book reviews" section of <u>Magazines for Libraries</u> , 3rd edition, 1978 which are also indexed in <u>Library Literature</u> . These are marked with a "B" in the main periodical listing. |
| 3. Serials (S) | The three periodicals focusing on serials which are indexed in <u>Library Literature</u> and recommended in <u>Magazines for Libraries</u> , 3rd edition, 1978. These are marked with an "S" in the main periodical listing. |
| 4. General: U.S. and Canadian (G) | The sixty-two North American titles indexed in <u>Library Literature</u> and either recommended in <u>Magazines for Libraries</u> , 3rd edition, 1978, or consistently listed in reading lists issued by Kent State University School of Library Science. These are marked with a "G" in the main periodical listing. |
| 5. General: Foreign (F) | The twenty non-North American periodicals indexed in <u>Library Literature</u> and recommended in <u>Magazines for Libraries</u> , 3rd edition, 1978. These are marked by an "F" in the main periodical listing. |

As Tables 1 through 6 indicate, the periodical collections best able to support a wide range of library science courses or professional development activities are located at the Ohio State University (CALICO), The State Library of Ohio (CALICO), Cleveland Public Library (INFO/CAMLS), and to a lesser degree at the University of Toledo (NORWELD) and at Wright State University (MILO). All of these collections hold over 60% of the periodicals included in the "General: U.S. and Canadian" category. Obviously the collections of the Kent State University (NOLA) and Case Western Reserve University (INFO/CAMLS) are excellent since both institutions have ALA accredited library schools. The only other libraries holding between 45% and 50% of the general category are Bowling Green State University (NORWELD), Ohio University (OVAL), and University of Cincinnati (SWORL/GCLC).

Not all titles are held by a single institution. As Table 7 indicates, students willing to use the collections of several libraries should be able to find most titles in the CALICO, INFO/CAMLS, NOLA and NORWELD regions. Some success should also be experienced in the MILO and SWORL/GCLC regional systems. Actual holdings published in a supplement to this report need to be analyzed to determine which courses could best be supported by each collection.

However, the opinions expressed herein do not necessarily reflect the position or policy of the U.S. Department of Education, and no official endorsement by the U.S. Department of Education should be inferred.

INTRODUCTION

This document supplements the publication "A Quantitative Evaluation of Library and Information Science Periodical Collections in the State of Ohio," issued by the Graduation Education for Librarianship in Ohio Project in March, 1981. It reports the periodical holdings for twenty-three Ohio libraries judged to have major periodical collections in the field of library and information science. Its function is to serve as a resource guide for instructional developers in library and information science.

Holding information is provided for all titles listed in the principal document cited above. Information is organized by title. Under each title, holding libraries are arranged by geographical area as follows:

- | | |
|-----------------|--|
| Northeast (NE): | AKR - University of Akron
CLE - Cleveland Public Library
CSU - Cleveland State University
CWR - Case Western Reserve University
OBE - Oberlin College
KSU - Kent State University
YMM - Youngstown and Mahoning County Public Library
YNG - Youngstown State University |
| Northwest (NW): | BGU - Bowling Green State University
TOL - University of Toledo |
| Central (C): | OCC - OCLC Library
OCO - Public Library of Columbus and Franklin County
OHI - The State Library of Ohio
OHT - Ohio Historical Society
OSU - Ohio State University
OUL - Ohio University, Lancaster
KEN - Kenyon College |
| Southeast (SE): | OUN - Ohio University |

Southwest (SW):

CDC - Cedarville College
WSU - Wright State University
CIN - University of Cincinnati
MXC - University of Cincinnati Medical Center
ORW - University of Cincinnati, R. Walters General & Technical
College

To facilitate reporting of holding information, serial librarians were asked to report holdings in terms of years, not specific volumes or issues. Holding information for periodicals with former titles varies, e.g., American Libraries. Some libraries furnished holdings for current title only; others provided information for both former and current titles. The reader should be able to distinguish between these cases by referring to the publication dates reported for current and former titles in the individual entry.

Entries also include category symbols used in the main document as follows:

Books and book
reviews (b)

The eleven selection tools listed in the "Books and book reviews" section of Magazines for Libraries, 3rd edition, 1978, are also indexed in Library Literature. These are marked with a "b" in the main periodical listing.

Serials (S)

The three periodicals focusing on serials which are indexed in Library Literature and recommended in Magazines for Libraries, 3rd edition, 1978. These are marked with an "S" in the main periodical listing.

General: U.S.
and Canadian (G)

The sixty-one North American titles indexed in Library Literature and either recommended in Magazines for Libraries, 3rd edition, 1978, or consistently listed in reading lists issued by Kent State University School of Library Science. These are marked with a "G" in the main periodical listing.

General: Foreign
(F)

The twenty non-North American periodicals indexed in Library Literature and recommended in Magazines for Libraries, 3rd edition, 1978. These are marked by an "F" in the main periodical listing.

The following guide illustrates a typical entry:

1-----1. AB BOOKMAN'S WEEKLY (B)-----3
